Akindeinde Precious

Abuja, Ng | Peeplope1@gmail.com | Authorized to Work in Nigeria and

PROFESSIONAL SUMMARY

AI Operations Specialist with 2+ years of experience in AI data annotation, LLM evaluation, prompt engineering, and RLHF response auditing. Skilled in analyzing AI-generated outputs across structured quality dimensions, including accuracy, instruction-following, truthfulness, verbosity, and safety, while delivering consistent, high-quality results at scale. Experienced in supervised fine-tuning (SFT) dataset creation, rubric development, and content quality assurance. Proven ability to work independently in fully remote environments with strong guideline compliance, attention to detail, and continuous improvement.

CORE COMPETENCIES

AI Data Annotation, Data Labeling, LLM Evaluation, RLHF (Reinforcement Learning from Human Feedback), Prompt Engineering, Prompt and Response Writing (SFT), Response Auditing, Rubric Development and Application, Model Output Evaluation, Content Review and Moderation, Quality Assurance (QA), Natural Language Processing (NLP), Classification and Rating, Technical Writing, Editing and Proofreading, Internet Research, Remote Collaboration, Microsoft Office Suite, Google Workspace, ChatGPT, Gemini, Slack, Discord, Zoom, Trello

PROFESSIONAL EXPERIENCE

Freelance AI Data Annotator and LLM Evaluator, DataAnnotation *Remote (Abuja-based) | February 2025 - Present*

- Evaluated pairs of AI-generated responses across structured quality dimensions, including instruction-following, truthfulness, verbosity, and writing style, providing detailed written preference justifications to support RLHF model training.
- Performed prompt engineering tasks and contributed to supervised fine-tuning (SFT) datasets, including prompt-response authoring and model output comparison.
- Earned certification badges in Prompt Engineering, Rubric Design, Advanced Prompt Engineering (Model Stumps), and Data Architecture, reflecting expertise across multiple annotation and evaluation task types.
- Conducted video evaluation of AI-generated content, applying structured rubrics to assess physical plausibility and motion quality against quality assurance guidelines.

AI Prompt Evaluator & Search Quality Rater, Appen — Remote (Abuja-based) | *March 2024 – December 2025*

- Rated search results and AI-generated answers for relevance, freshness, usefulness, and trustworthiness across general web, local, and knowledge-based queries.
- Identified and documented weak model behavior, including unsupported claims, formatting issues, missed instructions, and inaccurate search result matching.

AI Prompt Evaluator, RWS Data Services — Remote (Abuja-based) | *Jan 2024 – Jan 2025*

- Annotated and categorized datasets for machine learning projects, conducting quality assurance checks to ensure labeling consistency and accuracy across large-scale datasets.
- Built and tested prompts to evaluate model reasoning, instruction-following, language quality, and handling of ambiguous user requests.

Remote Content Writer and Editor, Self-Employed *Kaika • Abuja | June 2023 - March 2024*

- Created, edited, and proofread digital content with a focus on clarity, readability, and factual accuracy.
- Applied NLP awareness and technical writing principles across diverse content types and subject areas.
- Managed multiple concurrent projects independently in a remote-first environment, consistently meeting deadlines.

EDUCATION & CERTIFICATIONS

- Master's Degree in computer science
- AI for Everyone, Coursera (2023)
- Data Annotation and Labeling Fundamentals, Udemy (2023)
- Quality Management Systems (QMS) Training

ADDITIONAL INFORMATION

Strong written and verbal communication skills, advanced computer literacy, and experience working in distributed, remote-first team environments.
